

2026.02.25 - Daily Summary

2026.02.25 - Daily Summary

Summary

- **Start Time:** 6:45:31 AM
 - **Stop Time:** 3:57:28 PM
 - **Total Hours:** 7h 57m 25s (active tracked time, merged intervals)
-

Morning

Activity began at **6:45 AM** and ran continuously through late morning with a high-intensity mix of coding, research, and source control work.

Coding (6:45 AM – 11:03 AM) The morning was dominated by active development work. Coding sessions began immediately at 6:45 AM and continued in frequent bursts throughout, interspersed with research lookups and brief communications. Notable longer uninterrupted coding blocks occurred from 7:08–7:30 AM (~22 min), 8:05–8:22 AM (~17 min), 8:47–9:05 AM (~18 min), and 9:07–9:17 AM (~10 min). The pattern throughout was iterative: short coding stints followed by research/reference checks, then back to coding.

Research / TimeCard (throughout morning) Frequent short research bursts (typically 30 seconds to 3 minutes) were logged alongside TimeCard entries, suggesting regular lookups to support the coding work. A longer research block occurred from 9:56 AM–10:12 AM (~16 min total across several entries).

Source Control (7:01 AM – 11:20 AM) Multiple source control interactions throughout the morning: commits/pushes at 7:01, 7:06, 7:37, 7:43, 8:27, 9:36, 9:45, 9:56, 10:51, 10:52, 10:54, 11:07, 11:16, 11:20 AM. A slightly longer source control session occurred at 11:07–11:08 AM and 11:16–11:19 AM.

Communications (7:04 AM – 11:20 AM) Brief communications activity scattered throughout the morning, typically 5–39 seconds each, indicating quick message checks or responses.

Database (8:36 AM) A brief 36-second database activity occurred at 8:36 AM.

Testing (8:04 AM) A short 31-second testing entry at 8:04 AM.

Issue Tracking (10:26 AM) A 5-second issue tracking entry noted at 10:26 AM.

Afternoon

Coding (11:20 AM – 12:57 PM) A productive late-morning/early-afternoon coding run beginning at 11:20 AM. Notable: a large uninterrupted 42-minute coding block from 12:00:33 PM to 12:42:58 PM, followed by additional coding through 12:57 PM. Communications were interspersed briefly around 11:38–11:46 AM and at noon.

Source Control (11:20 AM – 11:38 AM) Multiple source control operations (commits/pushes) at 11:20, 11:30, 11:31, 11:37 AM.

Communications (11:19 AM – 12:43 PM) Longer communications sessions appeared around 11:38–11:46 AM (~7 min total), and brief exchanges at 12:00, 12:42, 12:43 PM.

Research (11:47 AM – 12:52 PM) Several short research stints in the late morning and early afternoon.

Issue Tracking (11:47 AM) A 5-second issue tracking entry at 11:47 AM.

Gap in entries: 12:57 PM – 1:37 PM (~40 minutes, likely a lunch break)

Coding (1:37 PM – 2:15 PM) Work resumed at 1:37 PM with coding, continuing through 2:15 PM with source control commits at 1:55 PM and 2:05 PM.

Communications (1:54 PM – 2:52 PM) More substantial communications activity in the mid-afternoon, including blocks at 2:15–2:17 PM (~2 min), 2:18–2:20 PM (~1.7 min), 2:21–2:22 PM, and scattered shorter exchanges through 2:52 PM.

Testing (2:21 PM – 2:52 PM) Extended testing session throughout the mid-afternoon. Multiple test runs with brief communications checks in between, totaling approximately 23 minutes of testing activity across the 2:21–2:52 PM window.

Coding (2:52 PM – 3:57 PM) The day closed with a large, uninterrupted 1 hour 5 minute coding block from 2:52 PM to 3:57 PM — the single longest continuous coding session of the day.

Evening

No entries recorded after 3:57:28 PM.

Summary Of Application Use

Application	Activities	Time Spent
Coding	Active software development; frequent iterative coding sessions with a major uninterrupted block of ~42 min midday and a final 1h 5m block in the afternoon	5h 44m 40s
Research	Reference lookups and research bursts supporting coding; frequent short sessions throughout the day	1h 0m 55s
TimeCard	Time tracking entries logged throughout the day, often concurrent with Research	1h 2m 26s
Source Control	Code commits and pushes; multiple operations throughout morning and early afternoon	0h 21m 58s
Testing	Focused testing session in the mid-afternoon (2:21–2:52 PM) with multiple test runs	0h 22m 59s
Communications	Brief message checks and responses throughout the day; longer exchanges mid-afternoon	0h 25m 34s
Database	Single brief database interaction	0h 0m 36s
Issue Tracking	Two brief issue tracking entries	0h 0m 10s
Development (General)	Single unclassified development entry	0h 0m 22s
