

2026.06.22 - Daily Summary

Summary

- Start Time: 7:09 AM
- Stop Time: 3:39 PM
- Total Hours: 6h 6m (merged active intervals, excluding gaps)

Note: All breaks are excluded from this report

Morning

7:09 – 7:15 | Startup and Email

Opened ManicTime and Outlook. Reviewed inbox and watched a company update video (Mason Evans) via Vimeo in Brave.

7:15 – 7:30 | Kelly.Revit – NuGet and Solution Maintenance

Opened Visual Studio Insiders and navigated across multiple projects. Reviewed and cleaned up code in `CollectorTestingCommand.cs`, `DocumentExtensions.cs`, and `Names.cs` in `Kelly.Revit.Logic`. Updated NuGet dependencies for `Kelly.Windows.Data`, `Kelly.Windows.Logic`, and `Kelly.Revit.Logic`. ReSharper Cleanup Code ran on affected projects. Built and verified the Revit reference targets.

7:16 – 7:30 | Typora – Post Attack.md

Edited `Post Attack.md` in Typora alongside VS work. Also opened and edited the Typora theme CSS (`scea1ic.css`) in Notepad++.

7:30 – 7:34 | Microsoft Teams – Calendar Review

Checked Teams calendars for Adam Fuller, Christopher Ford, Sammy Perona, and the general JH Kelly calendar. Reviewed Kelly Tools and General channels briefly.

7:34 – 8:09 | Autodesk Revit 2024 – Initial Testing Session

Launched Revit 2024.3 and opened the KTR Test Project (Piping and Families). Synced with Central. Navigated Floor Plan Site, Sections 5 and 7, and 3D views. Tested Kelly Tools including Level Correct and Racker. Documented testing notes in `Kelly Tools For Revit Testing.md` via Typora. Used Notepad++ for scratch notes and the Select Elements by ID dialog within Revit.

8:21 – 8:32 | ManicTime / Revit Continued

Resumed after a gap. Continued testing in Revit 2024.3 across 3D view and Floor Plan Site.

8:32 – 8:52 | Kelly.Revit – CopyElementIds and SelectByElementIds Feature Work

Heavy coding session in Visual Studio Insiders. Created and implemented `CopyElementIdsCommand.cs`, `CopyElementIdsPushButton.cs`, `SelectByElementIdsCommand.cs`, and `SelectByElementIdsPushButton.cs`. Added `DoesClipboardHaveText.cs` and `DoesClipboardHaveElementIds.cs` for clipboard-state enabler logic. Updated `GeneralRibbonPanelConfiguration.cs` to register the new push buttons. Used ReSharper Rename for symbol cleanup.

8:52 – 9:14 | Icon Design – CopyElementIds / SelectByElementIds

Searched Brave for Revit element ID copy icon references. Used M365 Copilot and Claude to assist with icon concept. Opened Snagit Editor and worked on `Designer.png`. Used Microsoft Paint for image editing. Created and exported `SelectByElementIds32.png` and `SelectByElementIds16.png` ribbon icons to the RibbonIcons folder via File Explorer.

9:14 – 9:21 | SelectByElementIdsPushButton Wiring and Deploy

Updated `SelectByElementIdsPushButton.cs` with icon references. Ran VSIX Installer to deploy. Updated test notes in Typora.

9:21 – 9:36 | ValveClearanceSpheres – Code and Icon

Rebuilt and redeployed via Revit 2024.3. Opened the KTR test model. Investigated the Valve Clearance Sphere feature. Implemented `valveClearanceSpheresPushButton.cs` and registered it in `GeneralRibbonPanelConfiguration.cs`. Captured a 3D view in Revit showing the valve clearance sphere geometry, then used Snagit to create `valveClearanceSphere.png`, `valveClearanceSphere32.png`, and `valveClearanceSphere16.png`. Adjusted visibility/graphic overrides and line graphics settings in Revit for clean screenshot output.

9:36 – 10:02 | Kelly.Revit – SelectByElementIds Logic Completion

Finalized `SelectByElementIdsCommand.cs`. Created `ClipboardTools.cs` in Kelly.Revit.Logic, implementing element ID parsing from clipboard text. Created `ElementIdExtensions.cs` for element ID conversion helpers. Updated `DocumentExtensions.cs` for document-level element selection. Used ReSharper Rename for method/type cleanup across the chain. Updated NuGet references as needed.

10:02 – 10:29 | Final Morning Testing and Teams/Outlook

Deployed updated build to Revit 2024.3. Tested SelectByElementIds and CopyElementIds commands in the KTR Test Project across Floor Plan Site and 3D views. Documented results in `Kelly Tools For Revit Testing.md`. Briefly checked Teams (Adam Fuller and Darrick Dunn calendars, General and Projects channels). Checked email. Attended/reviewed Teams activity for the Vancouver Employee Summer BBQ event.

Afternoon

11:30 – 11:45 | Revit – Extended Testing Session

Resumed after a break. Checked Teams BBQ activity and Outlook inbox. Ran a 14-minute focused testing block in Revit 2024.3 – Floor Plan Site.

11:45 – 12:00 | Kelly.Revit – Module Creator Review and VS Instability

Tested Kelly Tools Module Creator in Revit. Reviewed `ContextLists.cs`, `AutoUpdaterService.cs`, and `ViewExtensionsToMove.cs` in Visual Studio Insiders. VS went into a Not Responding state; reviewed NotePlan for Web via Brave and Edge as a workaround while waiting. Recovered and continued.

11:54 – 11:56 | GitKraken Desktop

Reviewed commit history / repository state in GitKraken Desktop.

12:00 – 12:10 | Kelly.Revit – PenetrationTag and ContextLists

Continued VS work. Reviewed and edited `SelectByElementIdsCommand.cs`, `PenetrationTagAssignPushButton.cs`, `TagAndNumberRibbonPanelConfiguration.cs`, and `ContextLists.cs`. Synced with Revit Central. Checked Revit's Module Manager dialog.

12:10 – 12:17 | Email and RibbonTools

Checked Outlook inbox. Reviewed `Kelly Tools For Revit Testing.md`. Edited `RibbonTools.cs` in VS Insiders.

12:17 – 12:36 | Revit – Module and Spool Tool Testing

Relaunched Revit 2024.3 and opened KTR test model. Tested Module Creator and Module Manager. Tested Spool Creator and Spool Manager. Navigated multiple views (Floor Plan Site, Section 8, 3D). Updated testing doc in Typora.

12:29 – 12:49 | Suspended Support Manager – Testing and Code

Tested the Suspended Support Manager from multiple views (Callout 2, Section 8, 3D). Triggered the Suspended Support Manage Command dialog. Navigated back to VS Insiders: reviewed and edited `SuspendedSupportManagerViewModel.cs`, `SuspendedSupport.cs`, and `VerticalSupportMember.cs`. Iterated between VS and Revit to test changes.

12:49 – 1:08 | Continued Testing – Level Correct, Content Catalog, Layout

Updated `Kelly Tools For Revit Testing.md` with results. Tested Level Correct in Revit Section 8. Synced with Central. Opened the Autodesk Content Catalog (signed in via MFA). Tested Layout Point Exporter; exported layout data to a Layout folder.

1:08 – 1:34 | Revit – Layout Point Importer and Suspended Support Wrap-Up

Tested Layout Point Importer. Worked through Worksets, Manage Links, and Link CAD Formats dialogs. Adjusted Visibility/Graphic Overrides for Floor Plan Site. Synced with Central multiple times. Documented results extensively in `Kelly Tools For Revit Testing.md`. Reviewed Section 9. Returned to VS Insiders to finalize edits in `SuspendedSupport.cs`.

1:49 – 1:56 | Post-Break Code and Testing Wrap

Resumed after a break. Checked email. Reviewed testing notes in Typora. Made final edits to `SuspendedSupport.cs`. Used GitKraken to review repo state. Rebuilt and tested in Revit 2024.3 one more time. Finalized `Kelly Tools For Revit Testing.md`.

2:44 – 3:39 | Personal Research and FigJam Session

Checked email and testing notes briefly. Researched DxO PhotoLab 9 (Mac compatibility, new features) via Brave and Claude. Browsed MacBook Pro M5 14" on Apple's site. Consulted Claude and M365 Copilot on brainstorming apps. Searched for Mural alternatives. Explored FigJam (created an untitled board, worked in it for approximately 35 minutes). Researched Sony FE 70-200mm f/2.8 GM OSS II and 85mm GM II lenses on B&H Photo. Watched Sony lens sample videos on YouTube (fototripper, Sony street photography). Briefly checked Teams Code Review channel.

Evening

No activity recorded after 3:39 PM.

Summary Of Application Use

Application	Activities	Time Spent
Autodesk Revit 2024	Tested Kelly Tools features (Module Creator/Manager, Spool Creator/Manager, Suspended Support Manager, Level Correct, Layout Point Exporter/Importer, Racker, ValveClearanceSpheres, CopyElementIds, SelectByElementIds); navigated Floor Plan, Sections, and 3D views; synced with Central; managed Worksets, Links, and Content Catalog	2h 27m
Microsoft Visual Studio Insiders	Implemented CopyElementIds and SelectByElementIds commands and push buttons; created ClipboardTools.cs and ElementIdExtensions.cs; edited ContextLists.cs, VerticalSupportMember.cs, SuspendedSupport.cs, SuspendedSupportManagerViewModel.cs, RibbonTools.cs, GeneralRibbonPanelConfiguration.cs, PenetrationTagAssignPushButton.cs, ValveClearanceSpheresPushButton.cs; NuGet and ReSharper cleanup	1h 31m
Brave Browser	Claude AI queries (DxO compatibility, brainstorming apps, lens research); DxO PhotoLab 9 research; Apple MacBook Pro browsing; M365 Copilot; IBEW Local 48 retirement info search; FigJam board; Sony lens B&H research; YouTube; NotePlan	1h 09m
Typora	Edited Kelly Tools For Revit Testing.md (testing documentation); Post Attack.md	0h 47m
Snagit	Created ribbon icons: SelectByElementIds (16/32px), ValveClearanceSphere (16/32px); edited Designer.png	0h 25m
File Explorer	Navigated to RibbonIcons, Masters, and repo directories; managed icon file placement	0h 09m
ManicTime	Time tracking application active during monitoring intervals	0h 07m
Microsoft Outlook	Reviewed inbox, sent items, and drafts across multiple check-ins	0h 07m
Microsoft Teams	Reviewed calendars (Adam Fuller, Christopher Ford, Sammy Perona); checked Kelly Tools and General channels; Vancouver Summer BBQ event; Code Review channel	0h 06m
Notepad++	Scratch notes; edited Typora theme CSS (scealic.css)	0h 04m

Application	Activities	Time Spent
GitKraken Desktop	Reviewed repository state and commit history	0h 02m
Microsoft Edge	Linear; NotePlan sign-in via Apple; Autodesk sign-in; M365 Copilot tabs	0h 02m
Microsoft Paint	Edited Designer.png for ribbon icon preparation	0h 01m
